INSTALLATION

- Mounting: Housing mounts into standard 1/2" Knockout Hole on Lighting Fixture or Electrical Junction Box. Wires feed through Knockout for connection inside Lighting Fixture or Junction Box.
- Extender Bracket (Optional): Extender bracket may be fastened into 1/2" Knockout on Lighting Fixture to allow for Motion Sensor to be installed below the Fixture in order to provide full line of site. Extender Bracket designed so that wires from the motion sensor can pass through the bracket directly into the Lighting Fixture.
